About lokigui

Jason Gui Bernard. Vocals, Guitars. Also known as lokigui I have been playing stringed instruments for 25 years, and through those years I have played a 5 string banjo, tenor banjo, mandolin but I always return to rhythm guitar as my instrument of choice. I have developed my own style of playing over time using tonal chords, middle voicing's and my favourite's triads to accentuate the melody lines of my songs. I am presently playing a B-15 Norman 12 string guitar. This wonderful guitar was born to play in the woods around a Bardic fire. When I am not playing music I own and operate Sun Tarot an occult shop in Montreal. I sponsor the Montreal International Folk Festival. The festival was started August 2002, and I hope it will continue to grow and flourish over the years, allowing local musicians a venue in which to showcase their original material.
